

HELMY
Pharmacies

Vision

We will be number one at the middle east through change the routine pharmacies and convert it to drug information center and service that be trustable for the customer.

Mission

We are one of the top pharmacy chains at the Egyptian market. we provide our customers superior service with innovative ways to make life easier and happier. We guarantee for our employees many opportunities for promotions and for development. Our social responsibilities very important and we keen about it.

We operate to be the first choice for all at healthy sector by providing superior, professional service and organized distribution to fulfill all types of customers.

What we are.

Helmy chain began to execute its vision from 2006 through targeting specific areas with highly competitive style to measure every step towards its vision at the market.

With development during the last two years we insist to provide qualified, organized and rapid service.

We established right and strong bases for Helmy chain at the Egyptian market that was supported with training for all departments and employees to enhance the managerial and educational level according to training department plan.

We aim to satisfy all customers through building trust and loyalty between the customer and our chain.
